

## Rachel McMillan Nursery School and Children's Centre

### Important announcement!

All the reception teachers across the country assess the children in July at the end of their year in reception. This is called the Foundation Stage Profile (FSP). This shows how well the children have done in nursery and reception.

We always have a look at the results and we are very pleased to be able to tell you that the 2015 FSP results for all the Rachel McMillan children who went to Greenwich Primary Schools in September 2014 are once again amazing!

The measure is called 'Good Level of Development (GLD)'.

Nationally 66% of children got a GLD in July 2015.

In Greenwich 77% of children got a GLD in July 2015

**87%** of the Rachel McMillan children who went to Greenwich schools in September 2014 got a GLD in July 2015!!!!!!!!!!

That is 2 years running that the children who came to Rachel McMillan have achieved above both the National and the Greenwich GLD.

All the staff at Rachel McMillan are really proud that they have contributed once again to your children doing so well.
